 **B-Lot** Co.,Ltd.

STANDARD Market : 3452

We wish to offer our heartfelt condolences to those who lost their lives in the 2024 Noto Peninsula Earthquake, which struck at around 16:00 on January 1, 2024 with its epicenter in the Noto region of Ishikawa Prefecture. We express our sincerest sympathy to all victims. Our hopes are for the safety of the affected people and the earliest possible reconstruction.

Facilities in Hokuriku area that are owned by the B-Lot Group are as follows. At present, while we have seen a minor impact on the land and buildings, which does not interfere with operations, we have received no report of injuries and do not expect any significant impact on our business performance.

At the B-Lot Group, we are aggressively expanding our businesses nationwide, with two guiding principles of corporate management: development of the Japanese economy and contribution to local communities. In addition to initiatives on sustainable management and development of a tourism-oriented country and attractive towns, which we pursue during normal times, we will also continue to work on the creation of facilities that help ensure the safety and security of local residents, in preparation for disasters and other events.

If we anticipate anything that will have a material impact, we will disclose the information promptly.
All officers and employees from B-Lot Co., Ltd.

Facility Name	Relationship with the B-Lot Group	Response
HOTEL TORIFITO KANAZAWA	Held	This facility continues to operate despite the impact of the emergency stop of elevators and other equipment and the cancellation of some accommodation bookings. On the day of the earthquake, the staff immediately provided information about evacuation centers and others. They also prepared and provided food to local residents and guests.
Nagamachi Seseragi Building (Public bath, commercial space for rent, and residential complex)	Held	Recovery work is underway mainly to repair roof piping that was damaged. The public bath attached to the building, which was planned to be closed during January 3 to 5, operated on the days for local residents who could not use their own bathrooms.
Tsuruga International Golf Club	Operating and held	On the day of the earthquake, in response to the tsunami alert issued in Tsuruga City, we opened the clubhouse and car parking space to the public to provide them with waiting spaces and toilet facilities. They were used by around 300 people. Fortunately, the earthquake did not damage the buildings or cause other problems.

Thank you very much for your continued support.

At the B-Lot Group, we achieved results exceeding the plan every fiscal year under the three-year Medium-term Management Plan that began in the fiscal year ended December 31, 2021. In addition, in the fiscal year ended December 31, 2023, the final fiscal year under the plan, we achieved the highest net profit in our history. In particular, our patient efforts in the business of operating hotels, golf courses, and indoor spaces for funeral urns, which we made toward the end of December 2023, proved effective and resulted in higher-than-expected growth in earnings.

We would like to express our gratitude again to all involved for their cooperation.

This year, 2024 will see numerous political events around the world, and it is extremely difficult to forecast trends for economies, including Japan's.

What direction will the Japanese real estate market take in these circumstances? We feel that there is a complex mix of positive and negative elements, and that it is difficult to determine the level of impact of macro trends on the real estate market.

We believe that the best thing for the B-Lot Group to do in these difficult market conditions is to remember the basics.

Since our founding, we have adhered to the management philosophy of pursuing profit and long-term growth as a company that creates businesses that offer value to society in the fields of real estate and real estate finance, and that is needed by society. We will continue to work on our businesses by positioning this management philosophy as the guiding principle of our activities.

Specifically, we will **(1) strive to improve the satisfaction of employees who play the leading role in supporting the company and secure and develop excellent human resources and attach importance to (2) growth in net profit and the maintenance and expansion of high profitability and (3) the growth of shareholder returns.**

In addition, we will **increase our awareness of building the B-Lot brand** and will seek to make company-wide efforts to link our strengths to further differentiation. We will expand the creation of high-grade products intended for wealthy customers and asset management professionals, customized, flexible, high-quality services, contributions to ESG through real estate restoration, and the application of new technologies such as crowdfunding, among others.

We are determined to fulfill our mission, that is, to continue growing steadily from the current fiscal year onward.

We look forward to your continued guidance and encouragement.

President CEO
Masahiro Mochizuki Makoto Miyauchi
